

Roofs

Product description

Classic™ premium

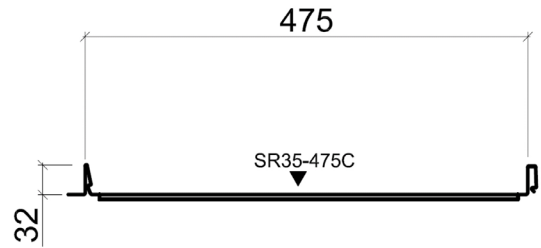

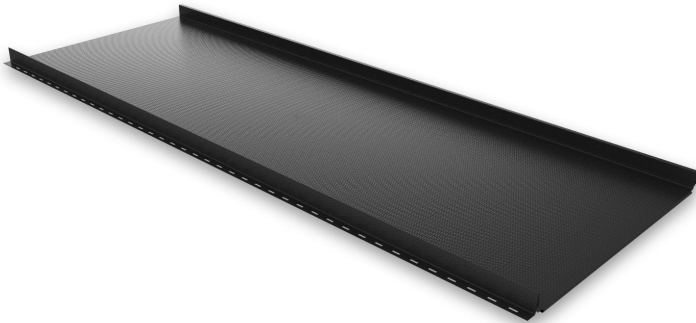

The new version of the classics of steel roofs has been designed for the ones demanding the very best of their roofs. All the strengths of Classic, such as timeless elegant appearance as well as top quality and durability are presented.

A new feature instead is an embossed surface, which gives new Classic a fresh new style feature. It increases stiffness which makes the profile straight and flat. Other new feature is effective sound isolation, which increases comfortness of living even more.

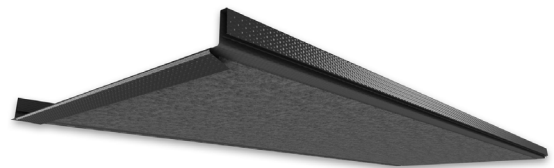

Product applications

- detached houses
- terraced houses
- residential multi-storey buildings
- recreational dwelling

Ruukki is a metal expert you can rely on all the way, whenever you need metal based materials, components, systems or total solutions. We constantly develop our product range and operating models to match your needs.
