

Roofs

Product description

Model Monterrey

A complete roof includes a lot more than just the roofing sheets. A combination of lead-ins, water removal systems, ladders, roof bridges and snow stops is also needed to make the roof safe and functional. All parts of roof packages manufactured by Ruukki are tested high-quality products that are compatible with one another. Steel roofs have an impressive and elegant appearance. They are watertight, light and durable, which ensures easy installation and use.

Product applications

- detached houses
- terraced houses
- residential multi-storey buildings
- recreational dwelling

Ruukki is a metal expert you can rely on all the way, whenever you need metal based materials, components, systems or total solutions. We constantly develop our product range and operating models to match your needs.

● **Product**

Name	Monterrey
e-code	MKTI
Effective width	1100 mm
Total width	1185 mm
Maximum length	8000 mm
Minimum length	800 mm
Length of pattern	350 mm
Total height	39 mm
Thickness	0.50 mm
Sales unit	m ²
Weight/unit	4.7 kg/m ²

● **Material**

Hot galvanized steel sheet	SFS-EN 10326
Minimum zinc amount	275g/m ²

Coated steel flat products	SFS-EN 10169-1 SFS-EN 10169-2
----------------------------	----------------------------------

● **Tolerances**

Product	SFS-EN 508-1
Material	SFS-EN 10143

● **Coatings and colours**
